

Community Engagement

Treasure Island

San Francisco Mime Troupe would like to thank our Community Partners for *Treasure Island*. We encourage you to further explore the issues presented in the show and to engage civically in your own community with these local organizations. Join us for a post-show discussion following select performances (listed below) and if you are part of a community based org that would like to join our coalition, please email engage@sfmt.org. We invite you to help us best utilize art's power to envision and demand a better future.

Post-Show Dialogue Opportunities

After the following performances, we'll have 20 min discussions on the issues addressed in the play. Please join SFMT and our community partners and lend your voice to one of our facilitated post-show conversations.
